

Cosl Drilling Pan Pacific Ltd

Recommendation letter

To Whom It May Concern

I Michael Beresford barge engineer aboard the COSL Power here give notice that Mr. Mohammad Romdhoni as Roustabout Has worked for Jack up Rig COSL Power on Contract with Saka Indonesia Pangkah Ltd and Petronas Carigali Ketapang Ltd in East Java, Indonesia.

I found him a very good team member, played an active part in the safety culture on here and helped the rig nearly achieve 10 years with no LTI.

He was actively involved as banksman and slinging with good communication skills. He was part of the team in safety meetings, has good experience of the PTW system and participated in the STOP programme.

He has shown good attitude towards his superiors and work mates.

Works hard and has gained a lot of experience as a Roustabout.

I would recommend him to your company as a Roustabout working towards roughneck position.

Michael Beresford
Barge Engineer – COSL POWER
